

Plainfield Hazard Mitigation Committee Minutes
June 15, 2017

Attending – Susan Grimaldi, Theresa Bienz, Michael Billingsley, Amos Meacham (by phone) plus John Lawrence

1. Review of May Minutes (amended by Michael to add word “Bridge” after Naismith Rd. Moved to approve as amended – Susan, 2nd – Theresa, passed unanimously

2. Evaluation of (watershed-related) Hazard Priorities as modified from Pam DeAndrea’s database:

1. Brook Road bridge #2 – Engineering design after RFP (FEMA funds?) Include evaluation, using M&M channel models, of an added eastward 6’ x 8’ box culvert with wing wall, channel modification & debris deflector.

2. Gully remediation & sediment clean up – Recreation Field Rd. (possibly with Friend of the Winooski)

3. Management planning & wetland remediation – upper Great Brook watershed (possibly with CVRPC High Meadows Fund assistance)

4. Debris-catcher study – off Brook Road, below bridge #4) and contingent upon Barre’s success.

5. Mill Street bridge #1 – feasibility and capacity study (including woody debris impact if Brook Road bridge is enlarged; need for reconstruction of upstream wingwall; and impact of removing concrete rails and replacing them with open or break-away metal rails)

List discussed. Susan moved to approve, Theresa 2nd. Approved by unanimous vote.
