**Review/approve agenda**

Approved agenda minutes as written for November 22, 2021

**Work On Water budget**

Last year was a 2% increase. Josh looked at a 9% increase for this year to compensate for the rate increase we swallowed last year.

The Commission went through the line items and adjusted them to create a 1st pass at the Water budget.

The Commission decided rather than having another separate budget meeting to deal with the budget items in the already scheduled December 21st 2021 meeting

The meeting adjourned at 3:13PM
