Some of the Goals and Strategies in section 4 will be revised since they have been done.

Bram suggested going through the chapters over the next few weeks.

Will said a few sub-committees to review the chapters. Jesse and Will can do Economic Development and Housing. Sarah and Baylen can do Natural Resources.

Bram and Will can do Transportation and Energy. These sub-committees will bring recommendations to the full Planning Commission.

Sarah will work with Pam at the CVRPC about adapting some of the newer CD maps with new data on the town.

Sarah sorted the list of farms in town by type and we went through the list to update it.

Baylen asked about the feeling from the Rt 2 intersection meeting. Bram thought it was generally positive and Jesse said he could see working on an enhancement focus that could draw people to the lower village. Sarah mentioned about signage that was put up years ago but got vandalized. Bram said he found the sign and is working on getting it put back up.
